2 Administrator of the United States Environmental Protection Agency ("EPA"), has failed to

make findings of failure to submit under 42 U.S.C. § 7410(k)(1)(B), and publish notice of those

findings in the Federal Register, for nonattainment state implementation plans ("SIPs") for the

1 Accordingly, Plaintiffs THE CENTER FOR BIOLOGICAL DIVERSITY, THE CENTER FOR 2 3 ENVIRONMENTAL HEALTH, and NEIGHBORS FOR CLEAN AIR bring this action against Defendant GINA McCARTHY, in her official capacity as EPA Administrator, to compel her to 4 perform these mandatory duties. 5 6 II. JURISDICTION 2. 7 This case is a Clean Air Act citizen suit. Therefore, the Court has jurisdiction over this 8 action pursuant to 28 U.S.C. § 1331 (federal question jurisdiction) and 42 U.S.C. § 7604(a)(2) 9 (citizen suits for failure to perform a non-discretionary duty required by the Clean Air Act). 3. An actual controversy exists between the parties. This case does not concern federal 10 11 taxes, is not a proceeding under 11 U.S.C. §§ 505 or 1146, and does not involve the Tariff Act of 1930. Thus, this Court has authority to order the declaratory relief requested under 28 U.S.C. § 12 13 2201. If the Court orders declaratory relief, 28 U.S.C. § 2202 authorizes this Court to issue injunctive relief. 14 III. NOTICE 15 4. On July 27, 2015, Plaintiffs mailed to EPA by certified mail, return receipt requested, 16 17 written notice of intent to sue regarding some of the violations alleged in this Complaint. EPA received this notice of intent to sue letter no later than August 3, 2015. More than sixty days 18 have passed since EPA received this "notice of intent to sue" letter. EPA has not remedied the 19 20 violations alleged in this Complaint. Therefore, a present and actual controversy exists. 21 IV. VENUE 22 5. Defendant EPA resides in this judicial district. EPA Region 9, which has authority over 23 California and Arizona, is headquartered in San Francisco. This civil action is brought against

an officer of the United States acting in her official capacity and a substantial part of the events or omissions giving rise to the claims in this case occurred in the Northern District of California. Therefore, venue is proper in this Court pursuant to 28 U.S.C. § 1391(e). V. INTRADISTRICT ASSIGNMENT 6. A substantial part of the events and omissions giving rise to the claims in this case occurred in the County of San Francisco. EPA Region 9, which has authority over California and Arizona, is headquartered in San Francisco. Accordingly, assignment to the San Francisco Division or the Oakland Division is proper pursuant to Civil L.R. 3-2(c) and (d). VI. PARTIES 7. Plaintiff the CENTER FOR BIOLOGICAL DIVERSITY is a non-profit 501(c)(3) corporation incorporated in California. The Center for Biological Diversity has over 50,000 members throughout the United States and the world. The Center for Biological Diversity's mission is to ensure the preservation, protection, and restoration of biodiversity, native species, ecosystems, public lands and waters, and public health through science, policy, and environmental law. Based on the understanding that the health and vigor of human societies and the integrity and wildness of the natural environment are closely linked, the Center for Biological Diversity is working to secure a future for animals and plants hovering on the brink of extinction, for the ecosystems they need to survive, and for a healthy, livable future for all of us. 8. The Center for Biological Diversity and its members include individuals with varying interests in wildlife species and their habitat ranging from scientific, professional, and educational to recreational, aesthetic, moral, and spiritual. Further, the Center for Biological Diversity's members enjoy, on an ongoing basis, the biological, scientific, research, educational,

conservation, recreational, and aesthetic values of the regions inhabited by these species,

including the regions at issue in this action. The Center for Biological Diversity's members observe and study native species and their habitat, and derive professional, scientific, educational, recreational, aesthetic, inspirational, and other benefits from these activities and have an interest in preserving the possibility of such activities in the future. The Center for Biological Diversity and its members have participated in efforts to protect and preserve natural areas, including the habitat essential to the continued survival of native species, and to address threats to the continued existence of these species, including the threats posed by air pollution and other contaminants.

- 9. Plaintiff the CENTER FOR ENVIRONMENTAL HEALTH is an Oakland, California based nonprofit organization that helps protect the public from toxic chemicals and promotes business products and practices that are safe for public health and the environment. The Center for Environmental Health works in pursuit of a world in which all people live, work, learn, and play in healthy environments.
- 10. Plaintiff NEIGHBORS FOR CLEAN AIR is a Portland, Oregon based nonprofit organization. It works to create a healthier Oregon through a reduction in air pollution.
- 10. Plaintiff's members live, work, recreate, travel and engage in other activities throughout the areas at issue in this complaint and will continue to do so on a regular basis. Pollution in the affected areas threatens and damages, and will continue to threaten and damage, the health and welfare of Plaintiffs' members as well as their ability to engage in and enjoy their other activities. Pollution diminishes Plaintiff's members' ability to enjoy the aesthetic qualities and recreational opportunities of the affected area.
- 11. EPA's failure to timely perform the mandatory duties described herein also adversely affects Plaintiffs, as well as their members, by depriving them of procedural protection and

| 1  | opportunities, as well as information that they are entitled to under the Clean Air Act. The       |  |  |  |
|----|--|--|--|--|
| 2  | failure of EPA to perform the mandatory duties also creates uncertainty for Plaintiffs' members    |  |  |  |
| 3  | as to whether they are exposed to excess air pollution.  |  |  |  |
| 4  | 12. The above injuries will continue until the Court grants the relief requested herein.           |  |  |  |
| 5  | 13. Defendant GINA McCARTHY is the Administrator of the EPA. In that role                          |  |  |  |
| 6  | Administrator McCarthy has been charged by Congress with the duty to administer the Clean Air      |  |  |  |
| 7  | Act, including the mandatory duties at issue in this case. Administrator McCarthy is also          |  |  |  |
| 8  | charged with overseeing all EPA regional offices including EPA Region 9, which has authority       |  |  |  |
| 9  | over California and is headquartered in San Francisco.   |  |  |  |
| 10 | VII. LEGAL BACKGROUND  |  |  |  |
| 11 | 14. Congress enacted the Clean Air Act to "speed up, expand, and intensify the war against         |  |  |  |
| 12 | air pollution in the United States with a view to assuring that the air we breathe throughout the  |  |  |  |
| 13 | Nation is wholesome once again." H.R. Rep. No. 1146, 91st Cong., 2d Sess. 1,1, 1970 U.S.           |  |  |  |
| 14 | Code Cong. & Admin. News 5356, 5356. To promote this, the Act requires EPA to set National         |  |  |  |
| 15 | Ambient Air Quality Standards for certain pollutants. 42 U.S.C. § 7409(a). National Ambient        |  |  |  |
| 16 | Air Quality Standards establish maximum allowable concentrations in the air of such pollutants.    |  |  |  |
| 17 | 15. After EPA promulgates a National Ambient Air Quality Standard, the Clean Air Act               |  |  |  |
| 18 | requires that EPA designate each area of the country as either a clean air area for that standard, |  |  |  |
| 19 | which is known as "attainment" in Clean Air Act jargon, or a dirty air area, which is known as     |  |  |  |
| 20 | "nonattainment" in Clean Air Act jargon. See 42 U.S.C. § 7407(d).                                  |  |  |  |
| 21 | 16. Under the Clean Air Act, each state is required to submit state implementation plans to        |  |  |  |
| 22 | ensure that each National Ambient Air Quality Standard will be achieved, maintained, and           |  |  |  |

enforced. Without such plans, the public is not afforded full protection against the harmful impacts of air pollution. 17. For dirty air areas which EPA has designated as "nonattainment," states must submit nonattainment area state implementation plans. See 42 U.S.C. §§ 7410(a)(2)(I), 7501 – 7509a, 7513 – 7513b. 18. The Clean Air Act requires EPA to determine whether any state implementation plan submittal is administratively complete. 42 U.S.C. § 7410(k)(1)(B). EPA must make this determination by "no later than 6 months after the date, if any, by which a State is required to submit the plan or revision." Id. 19. If a state fails to submit any required state implementation plan, there is no submittal that may be deemed administratively complete, and EPA must make a determination, and publish notice of that determination in the Federal Register, stating that the state failed to submit an administratively complete state implementation plan submittal within six months of when the submittal was due. 42 U.S.C. § 7410(k)(1)(B). This is referred to as a "finding of failure to submit." 20. Once a state does submit a state implementation plan submittal, EPA has a mandatory duty to take final action on any administratively complete state implementation plan submission by approving in full, disapproving in full, or approving in part and disapproving in part within 12 months of the date the submission is deemed administratively complete. 42 U.S.C. § 7410(k)(2) and (4). /// /// ///

VIII. FACTS 1 2 21. This case involves EPA's failure to timely implement the National Ambient Air Quality 3 Standards for PM2.5. There is no safe level of exposure to PM2.5, which includes hazardous forms of dirt, soot, smoke, and liquid droplets found in the air. 4 22. PM2.5 is "produced chiefly by combustion processes and by atmospheric reactions of 5 6 various gaseous pollutants," thus "[s]ources of fine particles include . . . motor vehicles, power 7 generation, combustion sources at industrial facilities, and residential fuel burning." 71 Fed. Reg. 8 61,144, 61,146 (Oct. 17, 2006). 9 23. The effects of PM2.5 on humans are profound. For example, exposure has been associated "with an array of health effects, notably premature mortality, increased respiratory 10 11 symptoms and illnesses (e.g. bronchitis and cough in children), and reduced lung function." 62 Fed. Reg. 38,652, 38,668 (July 18, 1997). 12 13 24. PM2.5 also adversely impacts wildlife. EPA has explained "a number of animal 14 toxicologic . . . studies had reported health effects associations with high concentrations of numerous fine particle components[.]" 71 Fed. Reg. 2,620, 2,643 – 2,644 (Jan. 17, 2006). 15 PM2.5 also causes direct foliar injury to vegetation. *Id.* at 2,682. 16 17 25. As to broader ecosystem impacts, EPA has explained that the nitrogen and sulfur "containing components of PM have been associated with a broad spectrum of terrestrial and 18 19 aquatic ecosystem impacts that result from either the nutrient or acidifying characteristics of the 20 deposited compounds." *Id.* These impacts include nitrogen saturation which "causes 1) Decreased productivity, increased mortality, and/or shifts in terrestrial plant community 21 22 composition, often leading to decreased biodiversity in many natural habitats wherever

atmospheric [reactive nitrogen] deposition increases significantly and critical thresholds are

| exceeded; (2) leaching of excess nitrate and associated base cations from terrestrial soils into   |
|--|
| streams, lakes and rivers and mobilization of soil aluminum; and (3) alteration of ecosystem       |
| processes such as nutrient and energy cycles through changes in the functioning and species        |
| composition of beneficial soil organisms (Galloway and Cowling 2002)." Id. EPA has described       |
| this impact on terrestrial ecosystems as "profound and adverse[.]" Id. EPA has also determined     |
| that PM2.5 adversely impacts aquatic ecosystems via excess nutrient inputs and acid and            |
| acidifying deposition. 71 Fed. Reg. at 2,682 – 2,683. "Data from existing deposition networks in   |
| the U.S. demonstrate that [nitrogen] and [sulfur] compounds are being deposited in amounts         |
| known to be sufficient to affect sensitive terrestrial and aquatic ecosystems over time." 71 Fed.  |
| Reg. at 2,683.   |
| 26. Moreover, PM2.5 adversely affects the visibility and aesthetics of our natural                 |
| surroundings. For example, regional haze is caused in part by particulates in the air scattering   |
| sunlight. 71 Fed. Reg. at 2,675 – 2,678. It is vital that EPA take the required action in order to |
| strengthen protection of public health and welfare against PM2.5.                                  |
| 27. In 2006, EPA strengthened the primary and secondary 24-hour PM2.5 NAAQS from 65                |
| micrograms per cubic meter (ug/m³) to 35 ug/m³. The revised 24-hour PM2.5                          |
| standards were published on October 17, 2006 (71 Fed. Reg. 61,144) and became effective on         |
| December 18, 2006. EPA made attainment and nonattainment designations for the 2006 PM2.5           |
| NAAQS which became effective on December 14, 2009. See 74 Fed. Reg. 58,688 (Nov. 13,               |
| 2009).   |
| 28. EPA designated all of the areas listed in Tables 1 and 2 nonattainment for the 2006            |
| PM2.5 NAAQS. 74 Fed. Reg. at 58,696. All elements of the nonattainment SIP were due by no          |

| 15 | 33. Pursuant to 42 U.S.C. 7410(k)(1)(B), EPA has a mandatory duty to make a finding of            |  |  |  |  |
| 16 | failure to submit by no later than July 1, 2015 for each area's nonattainment SIP elements listed |  |  |  |  |

### INSTRUCTIONS FOR ATTORNEYS COMPLETING CIVIL COVER SHEET FORM JS 44

#### Authority For Civil Cover Sheet

The JS 44 civil cover sheet and the information contained herein neither replaces nor supplements the filings and service of pleading or other papers as required by law, except as provided by local rules of court. This form, approved by the Judicial Conference of the United States in September 1974, is required for the use of the Clerk of Court for the purpose of initiating the civil docket sheet. Consequently, a civil cover sheet is submitted to the Clerk of Court for each civil complaint filed. The attorney filing a case should complete the form as follows:

- **I. (a) Plaintiffs-Defendants.** Enter names (last, first, middle initial) of plaintiff and defendant. If the plaintiff or defendant is a government agency, use only the full name or standard abbreviations. If the plaintiff or defendant is an official within a government agency, identify first the agency and then the official, giving both name and title.
  - (b) County of Residence. For each civil case filed, except U.S. plaintiff cases, enter the name of the county where the first listed plaintiff resides at the time of filing. In U.S. plaintiff cases, enter the name of the county in which the first listed defendant resides at the time of filing. (NOTE: In land condemnation cases, the county of residence of the "defendant" is the location of the tract of land involved.)
  - (c) Attorneys. Enter the firm name, address, telephone number, and attorney of record. If there are several attorneys, list them on an attachment, noting in this section "(see attachment)".
- **II. Jurisdiction.** The basis of jurisdiction is set forth under Rule 8(a), F.R.Cv.P., which requires that jurisdictions be shown in pleadings. Place an "X" in one of the boxes. If there is more than one basis of jurisdiction, precedence is given in the order shown below.

  United States plaintiff. (1) Jurisdiction based on 28 U.S.C. 1345 and 1348. Suits by agencies and officers of the United States are included here.

United States defendant. (2) When the plaintiff is suing the United States, its officers or agencies, place an "X" in this box.

Federal question. (3) This refers to suits under 28 U.S.C. 1331, where jurisdiction arises under the Constitution of the United States, an amendment to the Constitution, an act of Congress or a treaty of the United States. In cases where the U.S. is a party, the U.S. plaintiff or defendant code takes precedence, and box 1 or 2 should be marked.

Diversity of citizenship. (4) This refers to suits under 28 U.S.C. 1332, where parties are citizens of different states. When Box 4 is checked, the citizenship of the different parties must be checked. (See Section III below; **NOTE: federal question actions take precedence over diversity cases.**)

- **III. Residence (citizenship) of Principal Parties.** This section of the JS 44 is to be completed if diversity of citizenship was indicated above. Mark this section for each principal party.
- **IV. Nature of Suit.** Place an "X" in the appropriate box. If the nature of suit cannot be determined, be sure the cause of action, in Section VI below, is sufficient to enable the deputy clerk or the statistical clerk(s) in the Administrative Office to determine the nature of suit. If the cause fits more than one nature of suit, select the most definitive.
- V. Origin. Place an "X" in one of the six boxes.

Original Proceedings. (1) Cases which originate in the United States district courts.

Removed from State Court. (2) Proceedings initiated in state courts may be removed to the district courts under Title 28 U.S.C., Section 1441. When the petition for removal is granted, check this box.

Remanded from Appellate Court. (3) Check this box for cases remanded to the district court for further action. Use the date of remand as the filing date.

Reinstated or Reopened. (4) Check this box for cases reinstated or reopened in the district court. Use the reopening date as the filing date. Transferred from Another District. (5) For cases transferred under Title 28 U.S.C. Section 1404(a). Do not use this for within district transfers or multidistrict litigation transfers.

Multidistrict Litigation. (6) Check this box when a multidistrict case is transferred into the district under authority of Title 28 U.S.C. Section 1407. When this box is checked, do not check (5) above.

- VI. Cause of Action. Report the civil statute directly related to the cause of action and give a brief description of the cause. **Do not cite jurisdictional statutes unless diversity.** Example: U.S. Civil Statute: 47 USC 553 Brief Description: Unauthorized reception of cable service
- VII. Requested in Complaint. Class Action. Place an "X" in this box if you are filing a class action under Rule 23, F.R.Cv.P.

  Demand. In this space enter the actual dollar amount being demanded or indicate other demand, such as a preliminary injunction.

  Jury Demand. Check the appropriate box to indicate whether or not a jury is being demanded.
- **VIII. Related Cases.** This section of the JS 44 is used to reference related pending cases, if any. If there are related pending cases, insert the docket numbers and the corresponding judge names for such cases.

**Date and Attorney Signature.** Date and sign the civil cover sheet.
